Dear Unit-holder,

We are pleased to present you the following annual report for the ERSTE BOND EURO CORPORATE jointly owned fund pursuant to the InvFG for the accounting year from 1 August 2019 to 31 July 2020.

The name of the fund was changed from ESPA BOND EURO CORPORATE to ERSTE BOND EURO CORPORATE as of 29 November 2019.

We would also like to note that the fund ESPA ČESKÝ FOND FIREMNÍCH DLUHOPISŮ (the merging fund) was merged into ERSTE BOND EURO CORPORATE (the receiving fund) as of 29 November 2019.

Even as the COVID-19 pandemic spreads, we are not losing sight of our responsibility to manage the assets entrusted to our care in a manner that maintains our ability to act on the capital markets and that enables us to make the best possible allocation decisions.

Modern technology also allows us to meet these obligations in full via teleworking.

Development of the Fund

The market proved to be surprisingly resilient to external factors in the first weeks of the reporting period. Political turbulence in Italy and Great Britain and weaker fundamental data hampered a strong rally on the one hand while talk of a second corporate sector purchase programme was good news for corporate bonds as sustained low interest rates fuelled demand on the credit markets. In autumn, European corporate bonds initially did well but the darkening economic outlook in Europe as indicated by the weak purchasing managers' indices caused spreads on corporate bonds to widen. In the USA, hearings on the impeachment of President Trump caused additional geopolitical uncertainty.

A balanced investment strategy in secure names such as Apple, Deutsche Bahn, and Rabobank combined with increases of names with mid-level ratings such as Easy Jet and Heidelberg Cement and of subordinated issues from BAWAG and NN Group as the market for corporate bonds came under pressure limited the negative impacts on the fund in this period.

But conditions stabilised again in the following weeks. Good news about the trade conflict between the USA and China and the prospects for a Brexit deal brought more positive sentiment on the market. The market then exhibited surprising strength and an associated narrowing of yield premiums. The secondary markets were supported by the low issuance, and there were no material negative factors on the economic or political front. However, the fund closed the year with a total yield of minus 1.60 (ISIN: AT0000724216).

The European market for corporate bonds got off to a slow start in 2020. Spreads widened in the first days of the year following the targeted killing of the Iranian general Soleimani by US military forces in Iraq. After some political wrangling, the situation quieted down and the markets got back on more solid ground. The corporate bond market came under pressure again in the middle of January due to the global spread of the coronavirus and the resulting risk aversion. The fund proved resistant against the general uncertainty in this environment. After the fairly weak second half of 2019, activity on the primary markets picked up quickly. Here, the fund invested in issues including subordinated financial bonds from Unicredit and Banco Bilbao Vizcaya.

These market conditions continued until the beginning of March, at which point market sentiment went south due to the rapidly rising COVID-19 reproduction numbers. Fears of a recession due to the closed economies and populations under lockdown triggered a massive slide on the stock and bond markets.

Spreads widened massively in this phase. Nevertheless, corporate bonds could still be traded to a limited extent, unlike in previous crises.

We took advantage of this to reduce our overweighting of financials and cyclical issues focusing on transport and travel, and to take profits here.

As more and more central banks and governments around the world announced support measures and economic stimulus packages to head off the risk of a recession and skyrocketing unemployment, the slide on the bond markets came to an end. Investors slowly came back and began buying more corporate bonds. Most bonds in the universe slowly returned to their valuations from the beginning of the year, starting with defensive sectors such as health care, telecommunications, and paper and packaging and later broadening to include highly cyclical names.

The term “fallen angels” was heard more and more frequently in this period. For example, the ratings of the automakers Ford and Renault, the food products group Kraft-Heinz, and the Mexican oil company Pemex were downgraded out of the investment grade segment. The fund was invested in Ford and in Renault, whose bonds largely recovered after initial weakness while Ford bonds could even be sold at a profit on the secondary market.

The global hunt for yield is still providing support given the lack of alternatives (especially peripheral, corporate, and high yield bonds). Consequently, no changes were made to the strategy pursued by the fund up to now, namely overweighting subordinated bonds to raise the risk to a limited extent while maintaining an implicitly somewhat lower investment level.

The fund’s cash position was expanded. The credit quality in the portfolio remained unchanged. As a result, there was no change in the average rating.

The investment process has incorporated the consideration of ecological, social, and corporate governance factors since 20 February 2020.

The fund generated a performance of minus 1.60% (ISIN: AT0000724216) for the reporting period.

General information about performance:

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the performance is not reported below.

When a unit category is issued during the reporting period, the performance and reinvestment are calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance and reinvestment of this unit category differ from those of comparable unit categories.

The performance is determined assuming the reinvestment of all paid dividends and amounts at their nominal value on the day of disbursement.

Income Statement and Changes in Fund Assets

1. Value Development over the Accounting Year (Fund Performance)

Calculation according to the OeKB method per unit in the unit currency not accounting for a front-end surcharge

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the "performance", the "net earnings per unit", and the "total value including (notional) units gained through disbursement/payment" are not reported in the following.

When a unit category is issued during the reporting period, the performance is calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance of this unit category differs from that of comparable unit categories.

Explanation on disclosure pursuant to Delegated Regulation (EU) No. 2016/2251 supplementing Regulation (EU) No. 648/2012 of the European Parliament and of the Council on OTC derivatives, central counterparties, and trade repositories with regard to regulatory technical standards for risk-mitigation techniques for OTC derivative contracts not cleared by a central counterparty:

All OTC derivatives are traded through Erste Group Bank AG.

In the event of negative derivatives exposure, collateral in the form of cash or bonds is pledged to Erste Group Bank AG in accordance with the contractually agreed threshold.

In the event of positive derivatives exposure, EUR-denominated government bonds from the Republic of Austria and/or the Federal Republic of Germany are pledged by Erste Group Bank AG to the fund in accordance with the contractually agreed threshold. A one-time discount of 4% is agreed with the counterparty for this collateral. Collateral that would require a higher discount pursuant to Annex II to Delegated Regulation (EU) No. 2016/2251 is not accepted.

Principles governing performance-based remuneration components

The Management Company has adopted remuneration principles to prevent possible conflicts of interest and to ensure compliance with the standard rules of conduct when awarding remuneration to relevant persons.

Fixed salary components make up a large enough share of the total remuneration of all employees of the Management Company that a variable remuneration policy can be applied on an individualised basis.

The total remuneration (fixed and variable components) is governed by the principle of balance and is linked to sustainability so that the acceptance of excessive risks is not rewarded. Therefore, the variable remuneration forms no more than a balanced portion of the total remuneration awarded to an employee.

The performance-based remuneration components serve the short-term and long-term interests of the Management Company and contribute to preventing risky behaviour. The performance-based remuneration components take into account individual performance as well as the profitability of the Management Company.

The size of the bonus pool is calculated based on the bonus potential that can be applied to the different employee categories. Bonus potential is a percentage of the fixed annual gross remuneration. The bonus potential can be no more than 100% of the fixed annual gross remuneration. The bonus pool is adjusted depending on the success of the Management Company. The personal bonus is linked to individual performance. The total of personal bonuses is limited by the size of the bonus pool after deduction of penalties.

The performance-based payments are capped at 100% of the annual gross remuneration for all employees, including the material risk bearers (according to the definition in the remuneration policy) and managing directors of the Management Company.

The remuneration system is made up of three components:

- 1) Fixed remuneration
- 2) Variable remuneration
- 3) Fringe benefits

The bonus potential is based on the fixed annual gross remuneration. The target agreements concluded with the employees contain qualitative and/or quantitative objectives. The payment of performance-based remuneration components is subject to a minimum profitability level for the Management Company and to performance targets.

Sixty per cent of the performance-based remuneration components are paid immediately; for employees who are involved directly in fund and portfolio management, 50% of this is paid immediately in cash and 50% is paid one year later in the form of non-cash instruments. The remaining 40% of the performance-based remuneration components are retained and paid out over a period of three years, with 50% of this also being paid in cash and 50% in the form of non-cash instruments for employees who are involved directly in fund and portfolio management. The non-cash instruments can consist of units in an investment fund that is administered by the Management Company, equivalent holdings or instruments linked to units, or equivalent non-cash instruments. Based on the principle of proportionality, the Management Company has set a materiality threshold below which there is no incentive to enter into inappropriate risks, for which reason there is no need to make delayed payment or payment in the form of a non-cash instrument. Other non-cash benefits are fringe benefits that are not associated with performance but with a specific position (e.g. company car) or that apply for all employees (e.g. holiday).

The Supervisory Board of the Management Company has set up a Remuneration Committee to ensure that the remuneration policy and its application are independently assessed. This committee consists of the following persons: Rudolf Sagmeister, Harald Gasser (remuneration expert), and Heinrich Hubert Reiner.

The complete remuneration policy of the Management Company can be viewed at http://www.erste-am.at/de/private_anleger/wer-sind-wir/investmentprozess.

The last audit of compliance with the requirements of the remuneration policy by the Supervisory Board on 27 March 2020 revealed no deviations. There were also no material findings during the last audit by the Internal Auditing department.

No material changes were made to the remuneration policy during the past accounting year.

Audit Report*

Statement on the annual report

Audit opinion

We have audited the annual report prepared by Erste Asset Management GmbH, Vienna, for the fund under its management

ERSTE BOND EURO CORPORATE
Jointly owned fund pursuant to the InvFG

consisting of the statement of assets and liabilities as of 31 July 2020, the income statement for the accounting year ending on this date, and the other information specified in Annex I Schedule B of the Austrian Investment Fund Act 2011 (InvFG 2011).

Based on the findings of our audit, we believe that the annual report satisfies the legal requirements and provides a true and fair view of the assets and financial position as of 31 July 2020 and of the earnings position of the fund for the accounting year ending on this date in accordance with Austrian commercial law and the provisions of the InvFG 2011.

Basis for the audit opinion

We conducted our audit in accordance with § 49 (5) InvFG 2011 and in accordance with the Austrian principles of good auditing. These principles require the application of the International Standards on Auditing (ISA). Our responsibilities under these regulations and standards are described in the section “Responsibilities of the auditor in auditing the annual report” of our audit report. We are independent from the company as specified by the Austrian commercial and industry regulations and fulfilled our other professional obligations in accordance with these requirements. We feel that the audit evidence that we obtained is sufficient and suitable to serve as a basis for our audit opinion.

Management and supervisory board responsibilities relating to the annual report

The legal representatives are responsible for preparing the annual report and for ensuring that this report provides a true and fair view of the assets and financial and earnings position of the fund in accordance with Austrian commercial law and the provisions of the InvFG 2011. The legal representatives are also responsible for implementing the internal controls that they deem necessary to facilitate the preparation of an annual report that is free from material misstatements due to error or fraud.

The supervisory board is responsible for monitoring the accounting process of the company as it applies to the fund under its management.

Responsibilities of the auditor in auditing the annual report

Our goals are to ascertain with sufficient certainty whether the annual report contains material misstatements due to error or fraud and to issue an audit report that includes our audit opinion. Sufficient certainty is a high degree of certainty but no guarantee that an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, will always discover material misstatements that may be present. Misstatements can result from fraud or errors and are considered to be material when it can be reasonably expected that individual misstatements or a combination of misstatements can influence economic decisions made by readers on the basis of this annual report.

As part of an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, we exercise professional judgement and maintain professional scepticism during the entire audit process.

In addition:

- We identify and assess the risks of material misstatements in the annual report due to error or fraud, plan audit steps in response to these risks, perform the planned audit steps, and collect audit evidence that is sufficient and suitable to form a basis for our audit opinion. The risk that a material misstatement resulting from fraud will remain undiscovered is greater than for misstatements resulting from error because fraudulent activity can include collusion, the falsification of documents, intentional incomplete or misleading representations, and the circumvention of internal controls.
- We familiarise ourselves with the internal control systems that are relevant for the audit to plan audit steps that are appropriate under the specific circumstances, but not so as to state an opinion on the effectiveness of the company's internal control system.
- We assess the appropriateness of the accounting methods applied by the legal representatives and the reasonableness of the estimates made by the legal representatives in the accounts and of the associated information.
- We assess the overall presentation, the structure, and the content of the annual report including the figures as well as whether the annual report depicts the underlying transactions and events in a manner that provides a true and fair view.
- We discuss the planned scope and scheduling of the audit and any material audit findings, including material defects that we discover in the internal control system during our audit, with the supervisory board, among other issues.

Other information

The legal representatives are responsible for the other information. The other information includes all information in the annual report except for the statement of assets and liabilities, the income statement, the other information specified in Annex I Schedule B of the InvFG 2011, and the audit report.

Our audit opinion does not cover this other information, and we provide no assurance whatsoever for this other information.

In connection with our audit of the annual report, it is our responsibility to read this other information and to consider whether there are material discrepancies between the other information and the annual report or the information gathered by us during our audit, or if this other information appears materially incorrect in some other manner. If we come to the conclusion on the basis of our audit steps that the other information is materially incorrect, we are obligated to report this. We have nothing to report in this regard.

Fund Rules

The Fund Rules for ERSTE BOND EURO CORPORATE, jointly owned fund pursuant to the Austrian Investment Fund Act (Investmentfondsgesetz; InvFG) 2011 as amended, were approved by the Austrian Financial Market Authority (FMA).

The Fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Erste Asset Management GmbH (the "Management Company" in the following), which has its registered office in Vienna.

Article 1

Fund Units

The joint ownership of the fund assets is evidenced by certificates having the characteristics of a bearer unit.

The unit certificates are depicted in separate global certificates for each unit category. For this reason, individual unit certificates cannot be issued.

Article 2

Depositary Bank (Depositary)

The depositary bank (depositary) appointed for the Fund is Erste Group Bank AG, Vienna.

The payment offices for unit certificates are the depositary bank (depositary) and any other payment offices named in the prospectus.

Article 3

Investment Instruments and Principles

The following assets may be selected for the Fund in accordance with the InvFG.

The Fund invests predominantly, in other words at least 51% of its assets, in EUR-denominated corporate bonds from issuers that are either registered in Europe or whose business activities focus predominantly on Europe; the bonds must be in the investment grade (or other comparable) segment in terms of ratings assigned by recognised rating agencies.

These bonds must be purchased directly, in other words not indirectly or directly through investment funds or through derivatives.

The Management Company is not subject to any restrictions in the selection of the issuers with regard to the respective economic sectors in which they are active.

The fund assets are invested in the following instruments in accordance with the investment focus described above.

a) Transferable securities

Transferable securities (including securities with embedded derivative financial instruments) comprise at least 51% of the fund assets.

b) Money market instruments

Money market instruments may comprise up to 49% of the fund assets.

c) Transferable securities and money market instruments

Transferable securities and money market instruments may be purchased for the Fund when they meet the criteria regarding listing or trading on a regulated market or a securities exchange pursuant to the InvFG.

Transferable securities and money market instruments that do not meet the criteria described in the previous paragraph may comprise up to 10% of the fund assets in total.

d) Units in investment funds

Units in investment funds (UCITS, UCI) may comprise up to 10% of the fund assets per individual issue and may comprise up to 10% in aggregate total, provided that the target funds themselves (UCITS or UCI) do not invest more than 10% of their fund assets in units of other investment funds.

e) Derivative financial instruments

Derivative financial instruments can be used as part of the investment strategy and for hedging purposes, and may comprise up to 49% of the fund assets.

f) Risk measurement method(s) of the Fund

The Fund applies the following risk measurement methods: commitment approach

The commitment value is determined according to § 3 of the 4th FMA Regulation on Risk Calculation and Reporting of Derivative Instruments (4. Derivate-Risikoberechnungs- und MeldeV) as amended.

g) Demand deposits or deposits with the right to be withdrawn

Demand deposits and deposits with the right to be withdrawn with a maximum term of 12 months may comprise up to 49% of the fund assets.

There are no minimum bank balance requirements.

However, in the course of the restructuring of the fund portfolio and/or in the case of the justified expectation of impending losses experienced by transferable securities, the Fund can hold a proportion of transferable securities below the specified limit and a higher proportion of demand deposits or deposits with the right to be withdrawn with a maximum term of 12 months.

h) Acceptance of short-term loans

The Management Company may accept short-term loans for the account of the Fund up to an amount of 10% of the total fund assets.

i) Repurchase agreements

Does not apply.

j) Securities lending

Securities lending transactions may comprise up to 30% of the fund assets.

Investment instruments may only be purchased for the entire Fund and not for individual unit categories or groups of unit categories.

This does not apply to currency hedging transactions, however. Such transactions can also be concluded solely for a single unit category. Expenses and income resulting from currency hedging transactions shall be allocated solely to the respective unit category.

Article 4 Issue and Redemption Procedure

The unit value shall be calculated in the currency of the respective unit category.

The unit value is calculated at the same time as the issue and redemption price.

Issue of units and front-end surcharge

The issue price will be calculated and units issued on each Austrian exchange trading day with the exception of bank holidays.

The issue price shall be made up of the unit value plus a surcharge per unit amounting to up to 3.5% to cover the costs incurred by the Management Company in issuing the unit, rounded up to the next equivalent sub-unit of the currency unit specified for the respective unit category in the prospectus.

The Management Company shall be entitled to apply a sliding front-end surcharge scale at its own discretion.

There is no limit on the issue of units in principle. However, the Management Company reserves the right to temporarily or permanently suspend the issue of unit certificates.

Redemption of units and back-end commission

The redemption price will be calculated and units redeemed on each Austrian exchange trading day with the exception of bank holidays.

The redemption price is the unit value rounded down to the next equivalent sub-unit of the currency unit specified for the respective unit category in the prospectus. No back-end commission will be charged.

Upon request by the Unit-holder, his units shall be redeemed at the current redemption price in return for the unit certificate.

Article 5 Accounting Year

The accounting year of the Fund is from 1 August to 31 July.

Article 6 Unit Categories and Use of Earnings

The Fund features three different unit categories and the corresponding certificates: dividend-bearing units, non-dividend-bearing units with capital gains tax payment, and non-dividend-bearing units without capital gains tax payment, with certificates being issued for one unit each and also for fractional units.

Various unit categories may be issued for this Fund. The creation of unit categories and the issue of units of a specific category shall be decided at the discretion of the Management Company.

Use of earnings for dividend-bearing units

The earnings generated during the accounting year (interest and dividends) less all costs can be distributed as deemed appropriate by the Management Company. Dividend disbursement may be omitted in the interests of the Unit-holders. Dividends may also be disbursed at the discretion of the Management Company from earnings generated by the sale of fund assets, including subscription rights. Disbursements of fund assets and interim dividends may be paid.

The fund assets may in no case fall below the legally stipulated minimum volume for termination as a result of dividend disbursements.

The amounts shall be paid to the holders of dividend-bearing units on or after 2 November of the following accounting year. The remaining amount shall be carried forward.

An amount calculated in accordance with the InvFG must also be paid out on or after 2 November to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund units unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

Use of earnings for non-dividend-bearing units with capital gains tax payment (non-dividend-bearing units)

The earnings generated by the Fund during the accounting year less all costs will not be paid out. In the case of non-dividend-bearing units, an amount calculated in accordance with the InvFG must be paid out on or after 2 November to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund units unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

Use of earnings for non-dividend-bearing units without capital gains tax payment (KESt-exempt non-dividend-bearing units)

The earnings generated by the Fund during the accounting year less all costs will not be paid out. No payment pursuant to the InvFG will be made. The reference date for the exemption from KESt payment for the profit for the year for the purposes of the InvFG shall be 2 November of the following accounting year.

The Management Company shall provide suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

If these requirements are not met at the time of payment, the amount calculated pursuant to the InvFG must be paid out by the credit institution managing the respective securities account.

Article 7

Management Fee, Compensation for Expenses, Liquidation Fee

Valid until 31 December 2019:

The Management Company shall receive an annual fee for its administrative activities of up to 0.60% of the fund assets, which shall be accrued on a daily basis and calculated using the month-end values adjusted for the accrued fees.

Valid from 1 January 2020:

The Management Company shall receive an annual fee for its administrative activities amounting to up to 0.60% of the fund assets as calculated and accrued on the basis of the daily fund volume. The fee will be charged to the fund assets once per month.

The Management Company shall be entitled to compensation for all expenses incurred in the administration of the Fund.

The Management Company shall be entitled to apply a sliding management fee scale at its own discretion.

The costs for the introduction of new unit categories for existing investment funds shall be assessed against the unit price of the new unit categories.

Upon liquidation of the Fund, the party processing the liquidation shall receive a fee in the amount of 0.5% of the fund assets.

Further information and details about this Fund can be found in the prospectus.

Annex to the Fund Rules

List of exchanges with official trading and organised markets (As of September 2018)

1. Exchanges with official trading and organised markets in the Member States of the EEA as well as exchanges in European countries outside of the EEA considered to be equivalent to regulated markets

Every Member State must maintain a current list of the authorised markets within its territory. This list must be submitted to the other Member States and the Commission.

According to this provision, the Commission is required to publish a list of the regulated markets registered with it by the Member States once per year.

Because of lower entry barriers and specialisation in different trading segments, the list of “regulated markets” is subject to significant changes. For this reason, the Commission will publish an up-to-date version of the list on its official website in addition to the annual publication of a list in the Official Journal of the European Union.
